Reference Letter

Kasba Lake Lodge has been dealing with Northern Meats since July 2008. We are a remote, five-star, fishing lodge in the Northwest Territories. The food we serve is a huge part of our business and needs to be absolutely top quality.

We appreciate both the quality and service that Northern Meats provides for us and hope to continue the strong business relationship that we have established in the short time we've used them as a supplier.

Sincerely,
